AMARYLLIS, Domestic October to April

Giant Hybrid Meade Strain

The American Meade Strain of Amaryllis (*Hippeastrum*) makes gorgeous giant blooms in colors ranging from near white (with pencil striping) through various shades of pink to deepest reds and candy stripes. They are used extensively in the South for outdoor planting and they are popular bulbs in the North for indoor growing in pots. For indoor flowering, the bulbs should be potted in a mixture of fibrous loam, leafmold and sand, with liquid manure applied during the blooming period. They may be potted as soon as available, with the shoulder of the bulb protruding from the soil. If kept at a fairly even temperature of 65°F. they will develop a good vigorous root system. When the weather warms and after blooming, the potted plant can be placed in the soil outdoors and taken in again in the fall for flowering indoors. In mild climates bulbs may be kept outdoors in the ground from season to season; elsewhere they must be lifted and stored in dry sand through the winter.

AMARYLLIS, Imported November to April

"Royal Dutch"

Widely publicized in the flower magazines and general publications, the new, improved Dutch Hybrid Amaryllis (*Hippeastrum*) are in good demand. For their mammoth, majestic blooms, up to 8" across, and superb color and form, they easily justify the premium prices which they command. The mammoth size bulbs which we import, measuring fully 3¼" - 3½" in diameter, make several blooms to the stem and usually two stems per bulb. They make a truly sensational pot plant and the blooms are long lasting. Available in colors as listed below. Finest strain available, imported from old-established Holland grower. Guaranteed true to color.

CALLA AETHIOPICA (White)

August to December

Most widely known of the Calla family, Calla Aethiopica produces large, white waxy blooms on stems up to 2 1/2 feet. The leaves are a rich green, large and smooth, making a beautiful setting for the showy blooms. The white Calla is widely grown in pots for indoors blooms, also as a perennial outdoors in mild climates, and in the North for summer blooms in the garden. The bulbs can be potted as soon as available or stored and planted directly outdoors after frost danger. Callas like rich, moist soil.

GLADIOLUS, Giant Flowering

August and later

For Fall Planting in Florida and Gulf Coast Areas

We carry ample stocks of Gladiolus bulbs for late summer and fall delivery to those areas where Glads can be planted at that time, for fall and early winter blooms. Late summer and fall plantings can be made in Florida and Gulf Coast areas where there is time for flowers to bloom before danger of a hard freeze. Bulbs are clean and select for counter sales, well-cured for fall planting.

Gladiolus Tristis

August to February

Scented Winter Gladiolus

The Gladiolus Tristis is a lovely, miniature gladiolus, producing an abundance of well-formed, cream-white florets on a stem 18-20" high. Blooms are delightfully fragrant, especially at night. The corms of Gladiolus Tristis are small, but sizes offered will produce good blooms the first season. Planting directions furnished with bulbs.

Size 1/2" to 1" diameter	\$2.50	\$22.50

GLORIOSA (Glory Lily) Year 'Round →

Orange-Scarlet Climbing Lily (Rothschildiana)

Also known as the Glory Lily, the Gloriosa Rothschildiana tuber produces a climbing plant which grows rapidly four to six feet tall, requiring trellis support. From 10 to 30 blooms of brilliant scarlet and yellow develop from a single tuber. The plant thrives in southern gardens but is also in the North in greenhouses, and outdoors in warm locations during summer months.

The tubers should be planted in a bed of rich soil. Lay the tuber on its side with the sprout end about two inches under the soil and the more slender end somewhat deeper. The plant will grow in full sun or semi-shade.

Size (Length)	Prices F.O.B. Florida	
	Per 10	Per 100
4" to 5"	\$4.00	\$35.00

Ismene Calathina

September to March

"Peruvian Daffodil" →

Umbels of 3 to 5 sweet-scented pure white flowers. Stems and leaves like Amaryllis; 12 to 18 inches tall.

	Per 10	Per 100
1 1/2" and up diameter	\$2.50	\$22.50

LILY, (*Lilium Longiflorum*)

August to January

"EASTER LILY"

Improved "Georgia" strain. Compact growing, heavy blooming. Clean, healthy bulbs.

This is the familiar large, white, trumpet-shaped Easter Lily. In the mild climates of the South they are planted outdoors late in the summer or early fall. Elsewhere they can be grown indoors in pots—usually one bulb to a six-inch pot—and kept in a cool, dark place until root system has developed and top growth begins to appear; they can then be brought into full light.

Prices F.O.B. Florida

	Bulbs Per Case	Price Per Case	Price Per 100
9-10 inch	150	\$60.00	\$40.00
8-9 inch	200	65.00	33.00

DISPLAY RACK

Designed for outlets having good store traffic, this attractive, all-metal display stands 6 1/2 ft. high, occupies only four square feet of floor space, holds 12-16 dozen packages. Each tier revolves separately which permits "shopping" the display from one position. Furnished on refundable deposit of \$12.00. Deposit is refunded when rack is returned freight prepaid, or when orders total \$240 in one season or consecutive seasons. Can be used same location practically year 'round for spring, summer and fall bulbs. For smaller outlets, an effective display for these packages can be made with peg board and hooks obtainable at your local building supply dealer.
